

IT'S TIME TO FIGHT BACK!

Florida has a \$20 billion budget surplus, but instead of using that money to help people like you...

Because our union speaks truth to power, Gov. DeSantis is now coming after us all.

Now is the time to stand with the 150,000 educators from the Panhandle to the Keys who are members of their local unions. Together, we will make a difference.

Ask your building representative how you can take control of your union membership today by enrolling in eDues!

Your rent and homeowners insurance has doubled

Your pay is among the lowest in the nation for educators and your retirement is under attack

Your students don't have the supplies they need

Your governor is playing politics instead of leading on the issues you care about

**TOGETHER WE SAY,
"I'M STICKING WITH
MY UNION!"**
