

OUR UNION MAKES US STRONGER

*Our constitution gives us the right to join a union to help us advocate for our students and ourselves. **But the governor is attacking your constitutional right to join a union...***

- Making it harder for us to pay our dues
- Making it harder for your union leaders to communicate with you
- Making it harder for you to have union representation in disciplinary meetings
- Allowing a small minority of employees to decertify our union even with the majority of teachers supporting their union – jeopardizing our contract
- Forcing you to fill out additional paperwork regularly just to maintain your union membership

Ask your building rep how you can join your union today.
