

Why do we have to switch to eDues?

Through our union, we have been focused on addressing the causes of the massive teacher and staff shortage: pay and respect. Meanwhile, some politicians are making it harder for us to have a unified voice.

We know that the most secure way for teachers, staff and faculty to pay their union dues is through payroll deduction.

But with SB 256 Gov. DeSantis and the Florida Legislature took away that right.

Starting July 1, 2023 the use of payroll deduction for union dues is outlawed.

This is not new. For years Florida lawmakers – in an attempt to please their wealthy campaign donors – have been trying to take away this right.

We're not backing down!

We've created a safe, secure and easy solution to these attacks: **eDues**.

But all members must make the switch to eDues to maintain their membership and protect their union contract.
