

On the Issues: KAMALA HARRIS VS. DONALD TRUMP

Florida has been center stage for experiments when it comes to extreme agendas. From Moms For Liberty's assault on books and classrooms to the massive expansion of a voucher program that comes at the cost of neighborhood public schools. These agendas don't exist in a

vacuum — they are all part of the larger Project 2025, a policy agenda that has been called the “wish list” of a Trump presidency. The goals of anti-public education politicians in Florida are clear—dismantle public education in favor of corporate run schools that do not put students first.

Your vote is a personal decision.

Based on the issues that affect working families and public education, the Florida Education Association stands with our nationals and the American labor movement in their endorsement of Kamala Harris for President.
