

PUBLIC FUNDS, PRIVATE CONTROL

For the past 25 years, leaders in Florida have created an education system in the state that doesn't keep up with the promise in Florida's Constitution to ensure a **“uniform, efficient, safe, secure and high quality system of free public schools.”**

TAKE A LOOK AT WHAT'S HAPPENED OVER THE LAST THREE DECADES:

\$5 BILLION TAXPAYER DOLLARS

\$5 billion each year is siphoned away from public schools (your public tax dollars) to fund school options often run by for-profit companies. In fact, nearly one-third of voucher schools are for-profit.

NO TRANSPARENCY

No test scores from voucher schools have been made public since the 2023-24 school year. For the 23/24 school year, less than 1% of voucher schools had any test scores publicly reported.

UNEVEN SYSTEM OF EDUCATION

Voucher and charter schools which receive public funding have little to no accountability or oversight, while public schools and public school educators have thousands of pages of laws.
